

Residential Services

Group Residences & Shared Living

Quality of life begins at home. Triangle supports people to live in the communities they choose, maintaining their valued relationships while building new ones. Dignity, independence, community integration, health, and safety are at the core of our residential services. To help achieve each person's vision, Triangle offers two types of residential programs:

Group Residences

Triangle has ten community residences in Metro North and North Shore neighborhoods. Individuals pursue their goals every day under the guidance of 24-hour staff. Supports are designed around each person's level of independence and personal priorities, balancing companionship with privacy.

Shared Living

Shared Living matches an individual to a Home Provider who welcomes them as an equal, contributing adult member of the household. In addition to providing support with the logistics of life, the Home Provider also finds creative and fun ways to help the individual expand their community network. The matching process is individualized to carefully incorporate everyone's needs and preferences.

Compassion and Support

Since residents' needs and desires evolve over time, Triangle's support is flexible and responsive, including:

- Routine medical care and follow-up
- Medication monitoring, administration and supervision
- Assistance with home care, maintenance, and the details of daily living
- Comprehensive human rights training
- Support with personal care
- Nutritional guidance and cooking skills
- Help pursuing opportunities for personal growth
- Assistance with money management
- Development of skills for independence and safety

Community Involvement

Triangle encourages individuals to be active and productive members of the community. Our staff and Home Providers facilitate participation in clubs, organizations or events that interest each person. Residents are currently involved in a wide variety of community activities, including:

- Religious and spiritual congregations
- Volunteer work
- Tap lessons, art class, and piano lessons
- Senior Center and YMCA classes
- Swimming
- Musical theater and concerts
- Softball and bowling leagues
- Crafting
- Shopping and flea market outings
- Community employment
- Red Sox and other sporting events
- Car shows
