

Supported Employment

Triangle, Inc. offers an array of supported employment opportunities for clients. These sites are supported by staff and provide individuals with the opportunity to try different jobs. Some of Triangle's group sites include...

Bootstrap Compost

Bootstrap Compost is residential and commercial food scrap pickup service. The company partners with local farms and reuses organic materials for crop production. While working at Bootstrap, clients will sift through compost. They empty and process compost buckets that are brought in from the company trucks. They also realign the buckets and ensure they are prepared for future use.

Bausch & Lomb manufactures and sells optical products. While working at Bausch & Lomb, clients assemble and package contact eye lens cases.

Bausch & Lomb

Wicked Cool for Kids

Wicked Cool for Kids creates and implements different programs and activities to help further the education of school age children. Clients working at Wicked Cool Kids help assemble and package different science, art, and technology projects. Their projects are used for after school and summer programs.

Triangle has a connection with **Malden High School**. While at this site, clients can work on various different projects from assembling and packing HIV kits to sorting and stuffing mailing jobs.

Malden High School

DPW

Clients work with the **Malden Department of Public Works** to keep the city clean. Individuals go out in small groups and clean and pick up rubbish in parks and bike rails throughout the city.

Triangle has a connection with the **Soldier's Home** in Chelsea. While at this site, clients work on various different projects from assembling and packing HIV kits to sorting and stuffing mailing jobs.
