

# Triangle, Inc. - Randolph

Triangle, Inc. offers innovative and comprehensive programs that provide greater opportunities for employment, empowerment, independence, and community inclusion for people with disabilities. Our Randolph office also provides services to students and adults from surrounding communities, including Brockton.

## Adult Day Services

Our Randolph location provides group supported employment, individual supported employment, and community-based day services (CBDS) to adults and students with disabilities in partnership with the Department of Developmental Services (DDS) Brockton Area Office. Triangle, Inc.'s day services place a strong emphasis on community-based employment, giving all participants an opportunity to earn a paycheck.

## School to Career Day Services

Triangle's School to Career program provides employment-focused day programs in partnership with local school districts that directly address barriers to employment faced by individuals with intellectual or developmental disabilities. The program provides skill building, community-based supported employment opportunities, and job placement services to students. The School to Career program is unique in that students can stay in the program as they age out of school-funded services, which avoids disrupting individuals' progress as they work toward their long-term career goals.

## Pre-Employment Transition Services (Pre-ETS)

Triangle, Inc. is a contracted provider of Pre-ETS services through the Massachusetts Rehabilitation Commission (MRC). This program emphasizes career awareness, exploration, and preparation to equip young people with the skills needed for success in their future careers. These sessions are offered in partnership with local school districts throughout the area through the Brockton Area MRC Office.

## Workforce Development & Career Services

Triangle, Inc.'s Workforce Development team works with individual job seekers and inclusive employers to create win-win job placements throughout the Randolph and Brockton area. The organization's employment specialists are experts in providing skills and interest assessments, job search assistance, interview prep and coaching, and, once placed, ongoing employment supports to both youth and adults. The organization also offers credential training programs for individuals entering competitive growth industries.

we are all people with ability
