Shout Outs

With Thanks and Appreciation

I wanted to let you know she absolutely LOVED the class. She found the instructors to be very nice and engaging and the content to be easy to follow and very relative to what she is doing at this very moment which is interviewing for jobs. As I mentioned, this is very hard for her and we have been coaching her as well.

Please be sure to let us know what is coming up next in September and beyond. She has found these classes to be very good!

Thank you!

My students have all of the handouts and are using them during class. I know my kids are having trouble speaking up, but they are definitely doing their best to engage and work through the assignments. We have been doing some pretty great follow up group discussions. We will do our best to speak up today!

Thanks for this training, it is perfect for what we are doing!
